	Line 5:

The standard personalized format for a given item is shown in our catalog. If you would like to have the personalization done in any other way, you must be explicit.

For example: The 9040 (Shamrocks) is shown with all capitals. If you placed an order for 'The Sullivans' and did not indicate that upper and lowercase letters should be used or that you would like one line only, we would personalize the slate exactly as you see in print, with all capital letters on two lines.

We do not set a maximum number of characters that can be applied to a given slate. Please understand that as the number of characters and lines increases, the size of the text will decrease. We have a great deal of experience in personalizing slate and if we feel that placement or size of the requested text will jeopardize the attractiveness of the finished piece, Customer Service will contact you to discuss the options.
